**DETAILED ACTION**

***Claim Rejections - 35 USC § 102***

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(e) the invention was described in (1) an application for patent, published under section 122(b), by another filed in the United States before the invention by the applicant for patent or (2) a patent granted on an application for patent by another filed in the United States before the invention by the applicant for patent, except that an international application filed under the treaty defined in section 351(a) shall have the effects for purposes of this subsection of an application filed in the United States only if the international application designated the United States and was published under Article 21(2) of such treaty in the English language.

Claims 1 – 23 are rejected under 35 U.S.C. 102(e) as being anticipated by U.S. Patent No. 6,724,872 (Moore et al.).

With respect to claims 1 - 4, 6 – 12, 14 – 17 and 19 - 23 note that Moore et al. teach claimed limitations (see Abstract, Col. 2, line 66 – Col. 3, line 13, Col. 3, lines 37 – 40, Col.5, lines 28 – 32 and Figs. 2 - 4).

With respect to claims 5, 18 see Col. 4, lines 38 – 45 and Col. 6, line 66 – Col. 7, line 1 and Col. 7, lines 18 – 45.

With respect to claim 13, putting a caller on hold before sending a response would read on such a limitation (see hold button 230).

***Conclusion***

The prior art made of record and not relied upon is considered pertinent to applicant's disclosure.
